

Electronic Product Design
Electronics Wholesale
Optical Sensor Repair

XACTRIX
Battle Ground, WA 98604

Xactrix is pursuing your Electronic Engineering business. Let us assist with your next prototype or upgrade, and make it a product reality. We've 20 years of circuit and software experience to assure your project is a success...

Documentation:

- Project Specifications.
- Schematics.
- In-House Manuals.
- Assmeby Drawings.
- Bill of Materials

Hardware expertise:

- Microprocessors, MicroControllers, and Embedded intelligence.
- Digital Circuits and Field Programmable Gate Arrays (FPGA's).
- Analog Circuits, amplifiers, filters, and data conversion.
- Control and PID loops.
- Printed Circuit Board layout, routing, and liaison to manufacturer.
- Power, Cabling, and Packaging

Software expertise:

- Embedded C programs are concise, state-driven, and easily maintained.
- Control Applications.
- Test and Self-Test.
- Calibration and Alignment.
- Human Interface / GUI's.s

Powered by Integrity -
on track, on time, on budget.
